SUMMARY

I have gained hands-on experience in developing and deploying web applications using technologies such as HTML/CSS ,PHP and Wordpress. I am now seeking a challenging Software Development role where I can apply my programming, problem-solving, and teamwork skills, while continuing to grow in a fast-paced environment. With a strong passion for coding, a commitment to learning, and a proactive approach to skill improvement, I am confident that my technical abilities make me a great fit for a Software Development position.

EXPERIENCES

Junior Software Developer, Reymoro Technologies   *September 2023 – April 2024, Trivandrum*

Project: Karamana Co-Operative Urban Bank

Description: Karamana bank is a comprehensive banking project developed entirely on the WordPress platform.The project encompassed custom theme and plugin development, performance optimization, and stringent security measures to meet the high standards required in the banking sector.

HANDS-ON PROJECTS

Project 1 Movie Ticket Booking System

Tech-tack used: PHP, CSS, Bootstrap, JavaScript

Project Done: As part of course at the Institute (Orisys Academy)

Movie ticket booking system is an application where customers can view upcoming movies and shows along   with their show timings and a list of theatres showing the movie/shows. Seat status is available to the customers. The application admin can view the booked tickets and cancelled tickets.

Project 2 Shopping Carts

Tech-stack used: HTML, PHP, CSS and MySQL

Project Done: As my side project

The interaction between customers and their products or services online with the help of the application. The user can access various functionalities such as Register, Login, Add to Cart, Billing, Payment, etc. To design a simple e-commerce web application, the various concepts of PHP, HTML, and CSS will be used, along with connecting the database using MySQL.

CERTIFICATIONS

- Dynamic Web applications using PHP (Udemy)
- Junior Software Developer Course (Orisys Academy)
- UI/UX Design (Codtech IT Solutions)
- Full Stack Web Development (Devtown)
- Software Development (Upcode Software Labs)

TECHNICAL SKILLS

- Programming Languages - C, C++, PHP, JavaScript
- Frameworks - Bootstrap 5.
- Web Technologies - HTML 5, CSS 3
- GitHub and their version control (Branching, merging, and resolving conflicts)
- Software Development Methodologies like Agile and Waterfall
- Code Review Practices and Debugging techniques and tools
- Database Fundamentals – Data Modelling, Data Querying, Data Normalization
- Basic Understanding of React Js
- Proficient in WordPress theme, WooCommerce and Plugin development

SOFT SKILLS

- Team-player, Attention to detail, Collaborative, Continuous learner and Strong work ethic.

ACHIEVEMENTS

- Won several awards in various cultural events at school and college level events.
- Participated in National Council for Vocational Training (NCVT) at the college level and got certified.

EDUCATION

BSc Electronics, Class of 2019

Mannam Memorial NSS College (M G University Affiliated), Konni, Pathanamthitta, Kerala

Diploma in Consumer Electronics and Electrical, Class of 2015

AMET Technical College, Adoor, Pathanamthitta, Kerala
